Technical Writing Consultants

EATON and TWC

Powering Business Worldwide

Eaton Corporation is a global technology leader in electrical systems for power quality, distribution, and control; hydraulics components; systems and services for industrial and mobile equipment and aerospace fuel; and hydraulic and pneumatic systems for commercial and military use. Eaton serves commercial and military aviation, aerospace, military weapons, marine and off-road markets, worldwide. For the Aerospace industry, Eaton produces components for Cockpit Interface and Circuit Protection, Fuel Systems, Hydraulic Systems, Motion Control, Propulsion Sub-systems, and Air Distribution. Eaton has approximately 70,000 employees and sells products to customers in more than 150 countries.

For Eaton, TWC is currently producing Acceptance Test Procedures (ATPs) and Qualification Test Procedures (QTPs) for components (mechanical and electronic) related to the extension and retraction of main landing gear as well as the operation of nose wheel steering systems. The TWC team consists of engineers that create the procedures, illustrators that produce the required artwork, and writers that incorporate these procedures and illustrations into a document that is edited and formatted per Eaton requirements. We are proud to be a part of Eaton's success in the aerospace market.

**MERRY CHRISTMAS
AND
HAPPY HOLIDAYS
FROM TWC**
